**DETAILED ACTION**

1. The amendment filed 1/9/06 has been entered.

***Response to Arguments***

2. Applicant's arguments filed 1/9/06 with respect to claims 1-29 have been fully considered and are persuasive. The rejection of claims 1-29 has been withdrawn.

***Allowable Subject Matter***

3. Claims 1-17, 19-27, and 29 are allowed.
4. The following is an examiner's statement of reasons for allowance: Prior art fails to disclose an electron emitter assembly comprising a photo-responsive device disposed in the housing configured to receive the light passing through the light receiving window, the photo-responsive device operably coupled to an electron emitter device, the photo-responsive device applying a voltage to the electron emitter device in response to receiving the light to induce the electron emitter device to emit electrons, as claimed in claim 1. Claims 2-8 are allowed due to their dependency on claim 1. Prior art fails to disclose the corresponding method of claim 1, as claimed in claim 23. Claims 24-26 are allowed due to their dependency on claim 23.

Prior art fails to disclose an electron emitter assembly comprising a plurality of photo-responsive devices disposed in the housing configured to receive the light passing through the light receiving window and a plurality of electron emitter devices disposed in the housing, each photo-responsive device being operably coupled to a corresponding electron emitter device, each photo-responsive device applying a voltage to the electron emitter device to induce the corresponding electron emitter device to

emit electrons in response to the photo-responsive device receiving at least a portion of the light, as claimed in claim 9. Claims 10-16 are allowed due to their dependency on claim 9.

Prior art fails to disclose an electron emitter assembly comprising a first light source configured to emit light having a first wavelength, and a second light source configured to emit light having a second wavelength, first and second photo-responsive devices operably coupled to an electron emitter device, the electron emitter device including a first electron emitter subassembly and a second electron emitter subassembly, the first photo-responsive device inducing the first electron emitter subassembly to emit electrons in response to receiving the light having the first wavelength, the second photo-responsive device inducing the second electron emitter subassembly to emit electrons in response to receiving the light having the second wavelength, as claimed in claim 17. Claims 19-22 are allowed due to their dependency on claim 17. Prior art fails to disclose the corresponding method of claim 17, as claimed in claim 27. Claim 29 is allowed due to its dependency on claim 27.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
